Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This small commercial building faces northeast, across the street from the Calvert County Courthouse. Set on a concrete-block foundation, this is a one-story framed and weatherboarded structure oriented with its gable end toward the street. It is two bays long, and its facade is two bays wide. The original sash are two over two and double hung. There is a shed roof sheltering the entrance and extending over the sidewalk that is supported on a row of three modern piers. The original wood siding has been replaced with vinyl siding. This little building probably dates to the turn of the century.
